Description

The economy wall hung trough urinal can be wall mounted at adult or junior height leaving the floor clear for ease of cleaning and hygiene. The urinal is available with either a left or right hand waste outlet. The wall hung urinal is economically priced, easy to install and is available in a range of standard lengths, or purpose made to any size up to and including 3000mm.

Construction

The economy trough urinal is manufactured in one piece without joints or crevices from stainless steel, with all exposed surfaces polished to a satin finish. The requisite fall to a left or right hand waste outlet is built into the channel and the back of the urinal is designed to ensure an efficient spread of flushing water without drips or splashing. Available from stock in six standard lengths, or made to order in any length up to 3000mm long. All urinals incorporate a concealed horizontal sparge pipe and integral return ends for either wall or free standing installations.

Each urinal is supplied with a 38mm plastic dome grated waste fitting and stainless steel automatic cistern and flush pipe.

Options

- ▲ Corner infill section for "L" or "U" plan configuration
- ▲ Back entry flush pipe connection for concealed cistern
- ▲ End feed and off centre flush pipe connection
- ▲ Stainless steel trap cover
- ▲ Stainless steel downpipe cover
- ▲ Choice of **Enviro-Glaze** colours finishes
