

## Technical Specification

### Length

The Wave solid surface wash trough is available in six standard lengths only; 1000mm, 1500mm, 2000mm, 2500mm, and 3000mm.

### Waste Outlet

The Wave solid surface wash trough is supplied as standard with a 38mm (1½ inch) BSP waste outlet connection for each individual wash area.

### Tap Hole Position

The solid surface nursery wash trough is produced with either one central or two tap holes per user.

### Tap Hole Sizes

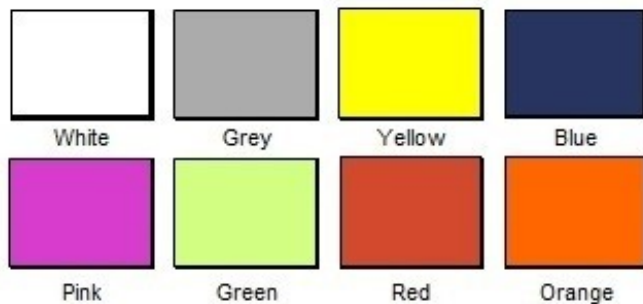

The standard tap hole sizes are 22mm, 28mm, 30mm and 35mm diameter.

### Tap Options

All solid surface wash troughs are available with a selection of mechanical and "no-touch" sensor operated taps and spouts. Please refer to our web site for suitable products.

### Soap Dispensing

All solid surface wash troughs are available with a selection of wall or deck mounted mechanical and "no-touch" sensor operated liquid soap dispensers. Please refer to our web site for suitable products.

Standard colours shown are indicative and a guide only as colour rendition varies between screens and printers.
