

KNEE OPERATED TIMED FLOW VALVE CONCEALED

PRODUCT CODE
6832 TKV

FEBRUARY 2015

Special Features

- ▲ KNEE OPERATED
- ▲ HYGIENIC "NO TOUCH"
- ▲ WATER AND ENERGY SAVING
- ▲ CONCEALED FITTING

Description

The knee operated timed flow valve is self closing providing savings in both water usage and energy in all commercial and industrial environments. Ideal for use where a high level of hygiene is required, the valve is also suitable for the wheelchair bound and those with restricted hand movement. The valve is designed for concealed wall mounting and the timed control gives approximately 15 seconds flow from each activation, by the lever articulating in any direction. Manufactured from brass with a chrome plated finish, the valve is suitable for connecting to a temperature controlled warm water supply and is supplied with inlet and outlet compression fittings to suit 15 mm diameter pipe. The valve should be used in conjunction with a wall or basin mounted spout.

Pressures and Operating Conditions

Maximum operating pressure:	5 bar
Minimum operating pressure:	0.5 bar
Maximum inlet Temperature:	65°C
Timed flow at 1 bar:	15 ± 3 seconds

Order Code:

6832 TKV (concealed)

For an exposed fitting knee valve please refer to model 6831
