

Special Features

- ▲ STAINLESS STEEL
- ▲ SELF-CLOSING DOOR

Description

The Countertop Waste Door is manufactured from 304 grade stainless steel with all exposed surfaces polished to a satin finish. The outer flange is a one piece seamless construction with a return edge for rigidity. The unit is provided with a self-closing door which is secured to the frame with a full length spring loaded piano hinge and can be recess mounted in both horizontal and vertical surfaces.

Operation

The Countertop Waste Door provides easy access to an under-counter waste container (not supplied). The door is spring loaded and returns to the closed position automatically.

Installation

The unit is installed in a countertop cut out 286mm x 114mm. The thickness of the countertop should be between 19mm and 38mm. The minimum clearance required beneath the mounting surface is 114mm.
